PROFILE SUMMARY

Certified Cybersecurity professional (ISC2 CC, Google Cybersecurity, API & DPDP). Strong foundation in network security, threat detection, vulnerability assessment, API security, and data privacy. Seeking an entry-level Cybersecurity / SOC Analyst role.

SKILLS

Network Security: TCP/IP, DNS, HTTP/HTTPS, Firewalls, IDS/IPS basics, Wireshark, Nmap
Security Operations: Log analysis, SIEM basics, Incident Response lifecycle, Threat detection fundamentals
Vulnerability Assessment: OWASP Top 10, Nessus/OpenVAS basics, SQLi & XSS concepts
API Security: REST APIs, OAuth & JWT basics, OWASP API Top 10, Postman testing
Cloud & IAM: IAM fundamentals, Access control (RBAC), Shared responsibility model
GRC & Data Privacy: DPDP Act (India), Risk assessment basics, Security policies
Tools & OS: Linux (CLI), Windows security basics, Burp Suite, Splunk (fundamentals)
Scripting: Python (basic), Bash fundamentals

PROJECTS

Phishing Email Analysis: Analyzed suspicious emails to detect spoofed domains, malicious links, and header anomalies. Documented findings and recommended mitigation steps.

Tools: VirusTotal, Email header analyzer

Web & API Security Testing: Tested web app and REST APIs using OWASP guidelines. Identified authentication and input validation issues and suggested remediation.

Tools: Postman

DPDP Risk Assessment: Conducted mock compliance assessment based on DPDP Act. Identified data handling risks and recommended access control improvements.

EDUCATION

Aditya Engineering College(A), Kakinada
- ***M.Tech in Structural Engg. |8.67 CGPA | 2024***

Aditya Engineering College(A), Kakinada
- ***B.Tech in Civil Engg.|8.21 CGPA | 2022***

COURSEWORK

AI Security
Cybersecurity Fundamentals
Network Security
Security Operations
Vulnerability Assessment
API Security
Data Privacy & Governance
